

COLOR YOUR PROJECTS HAPPY WITH *blendabilities*

Blending has never been easier with our new Stampin' Blendabilities. These exclusive, alcohol-based marker sets come in a 3-pack of light, medium and dark shades (of the same color), and provide your projects a more saturated look with blended colors.

129369	Color Lifter	\$4.95

We recommend using Stampin' Up! Whisper White Cardstock with your Stampin' Up! Blendabilities, but choosing any one of our cardstocks will add a unique look to your project. And because traditional alcohol markers require a bit of training, we've developed a few videos to ensure that Blendabilities are easy-to-use for everyone!
www.youtube.com/user/stampinupvideo

- The Stampin' Up! rectangular barrel keeps your markers from rolling away!
- Flat storage helps to maintain the life of each marker.
- Each marker comes with a tip on each end: brush and fine.
- Marker tips are made of nylon, which is superior to polyester which can fray.
- Colour coded caps.
- Stampin' Up! markers coordinate wonderfully with our cardstock, and can be used with transparent sheets.
